

“Anatomy Of A “Fit 2 Drive Lesson” We’d Like You To Understand Exactly What’s Included In Your Driving Lesson And The How This Can Help You Ease Your Nerves And Increase Your Confidence On The Day Of Your Test”

After introductions the very first thing I’ll do is to check your learners licence is current and log book has been filled in correctly. I have come across many instances of the previous instructor not filling in the “Structured driving lessons” area at the **BACK** of the log book; if you do not have this in your log book I’ll be happy to provide one for you.
Incorrectly filled out logbooks cause stress and embarrassment on the day of your test!

I’ll have a brief chat about what you’ve done, what you’d like to practice (reverse park, 3 point turn etc) go over the controls of the car and explain how I’ll be keeping us safe.

Then We’ll Be Off- All The Above Takes About 4-6 Minutes

We’ll hold your lesson wherever you feel comfortable, whether that’s on the road or in a carpark, it will be relevant to your current level of experience.

During the course of the lesson I’ll be pointing out what you need to be aware of, what you need to correct AND also what I think you’re doing well. Giving instant (but not so much as to overwhelm you) feedback on the spot helps you to remember then and there rather than proving you with a whole bunch of things you’ve done wrong at the end of the lesson!

Your lesson will be fun, yes learning to drive SAFELY is a serious topic but rest assured you’ll have a few laughs along the way.

5 Minutes From The End Of The Lesson We’ll Pull Over(return to kerb manoeuvre) And I’ll Give You Written Feedback About How You’ve Gone, Some Things To Practice With Your “Supervising Driver” And You’ll Receive All The Below As Included In The Price Of Your Lesson:

- “Kim’s Tips” –know in advance what your assessor will be looking for you to do on the day of your test-want to pass first time? Its in here what you’ll need to do
- A copy of my newsletter with the answer to several very interesting questions I get asked by learner drivers.
- A copy of my “Pass your P Plate Test First time DVD and CD” I sell this for \$55 from <http://www.fit2driveschool.com/pplatedvd/PplateDVD.html> for FREE
- **And YES you can have a FREE lesson by going to www.fit2driveschool.com and clicking on the free lesson icon! All My prices are on the website but for those of you without access to the “net see over thanks☺**

REAL REVIEW

Hi Kim we wanted to send u a Christmas card but didn't have your address. Rachael

Was so thrilled to receive your card your such a thoughtful person. Rachael misses her lessons with with u-she is doing really well-incredibly safe which we owe to u. We wish u & your family wonderful Christmas & a bright and beautiful new year. Best wishes from us all we will toast u with a glass or two!

Sent By Rachael's mum Debbie

One Hour lesson for \$50 **SAVE \$20**

Three One Hour Lessons for \$80! **Save \$130** (One lesson must be the Keys to Drive Lesson)

1X Two Hour lesson (does not have to include Keys To Drive lesson) \$90 **SAVE \$40**

NB

I'll enter 3 hours in your log book for every day time hour you do with me **BEWARE** those Instructors that do not this. Some only enter one for one hour. Yes its extra time (my time-not yours) paperwork for your instructor to do a "structured lesson rather than "just let you drive". *So that \$35 lesson may seem cheap, but by the time you've had three hours recorded in your log book with that instructor under the way that he or she is recording it you've paid \$105! If you have LESS than 10 hours up with an instructor **it means is that you are not getting what you paid for and are getting short changed!***
